

Designer Introduction

Hello everyone,

My name is Tobias Thieme and I work at an IT/Automotive company in Germany. System Bricks were my favorite toy growing up, but as I got older, other things became more important. In 2013, I rediscovered them, quickly getting lost in the new possibilities and the amazing creations I saw in the online brick community. Soon I started creating and sharing my own designs as well.

I love to create detailed buildings with interesting architectural features. I strive to include unusual and creative building techniques whenever feasible without sacrificing overall stability.

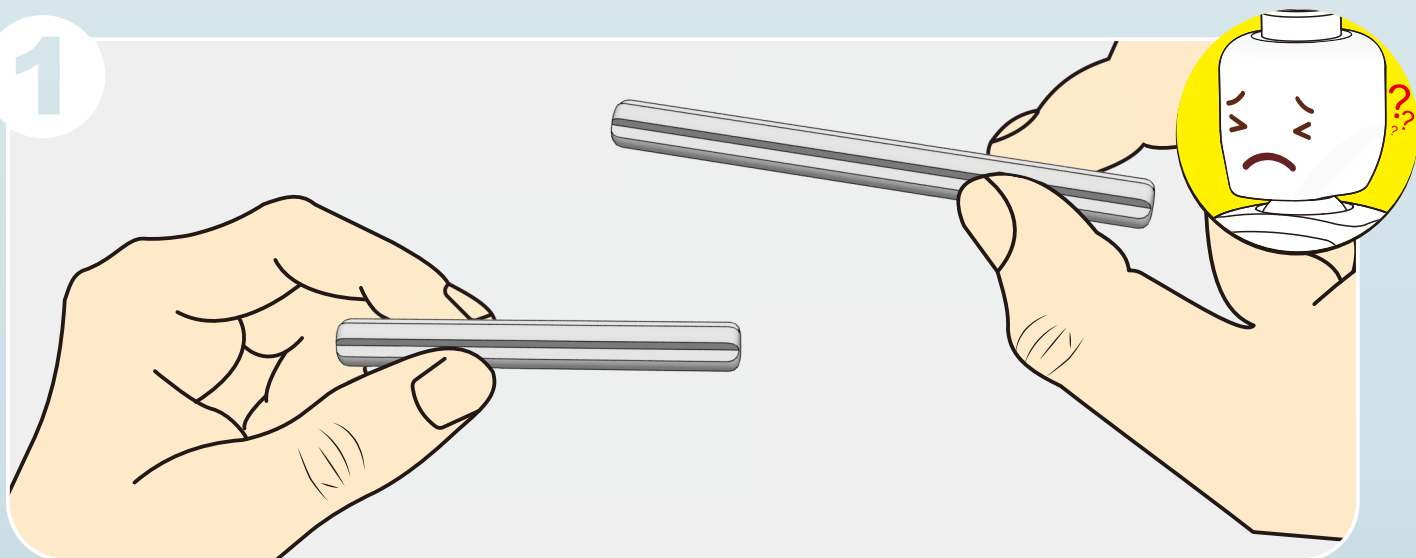

I feel very honored that CaDA asked me to do a set with them. It is a dream come true and I hope that more fan designers will get the same opportunity.

I hope building this set brings you as much joy as I had designing it !

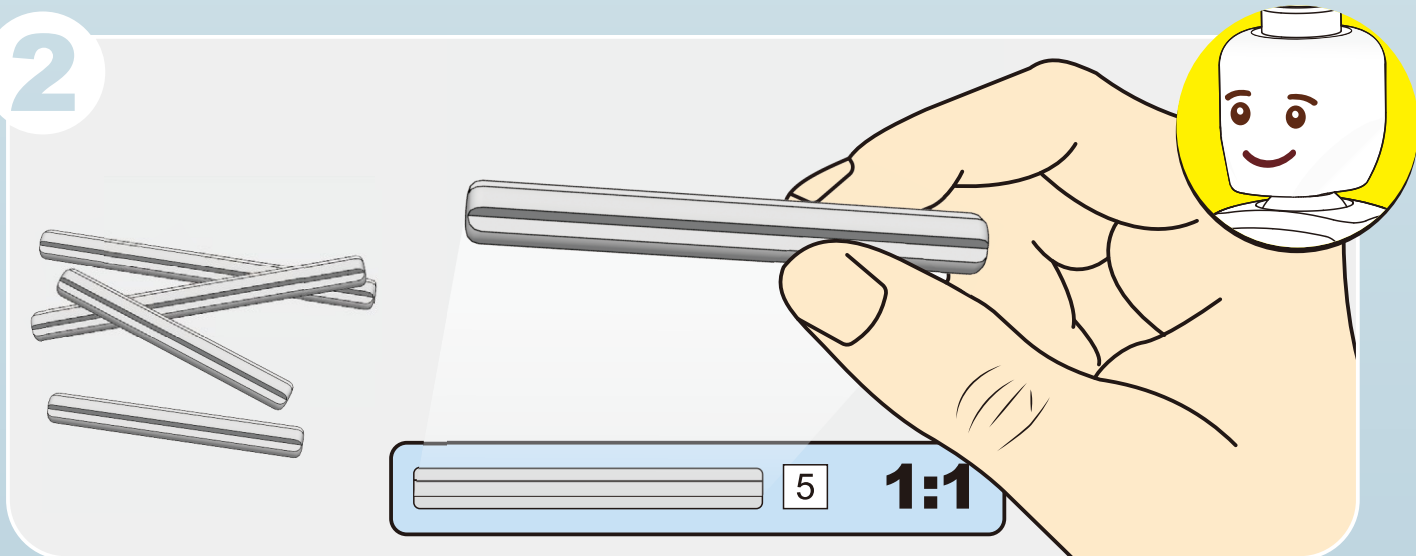

Designer: Tobias Thieme

A handwritten signature in black ink, appearing to read 'T. Thieme', written in a cursive style.
