

Designer Introduction

My name is Tong Xin Jun and I'm a designer going by the alias of ExeSandbox. I've loved building toys during my childhood and that interest has evolved into creating my own designs and sharing them with people around the world. I have a fascination for the aesthetic and enjoy exploring strange or uncommon ideas while figuring out how to realize them and incorporate my style into the mix as well. I hope I am able to provide new and interesting experiences with my models for fellow brick fans!
